AVATAR

Each AVATAR consists of 5 standardized components: face, hat or hairstyle, accessories, clothes, background. The system automatically assembles various components to generate a specific avatar style, and the scarcity of the avatars they generate is different from each other.

AVATAR NFT exists in every game of Shambala.

LAND

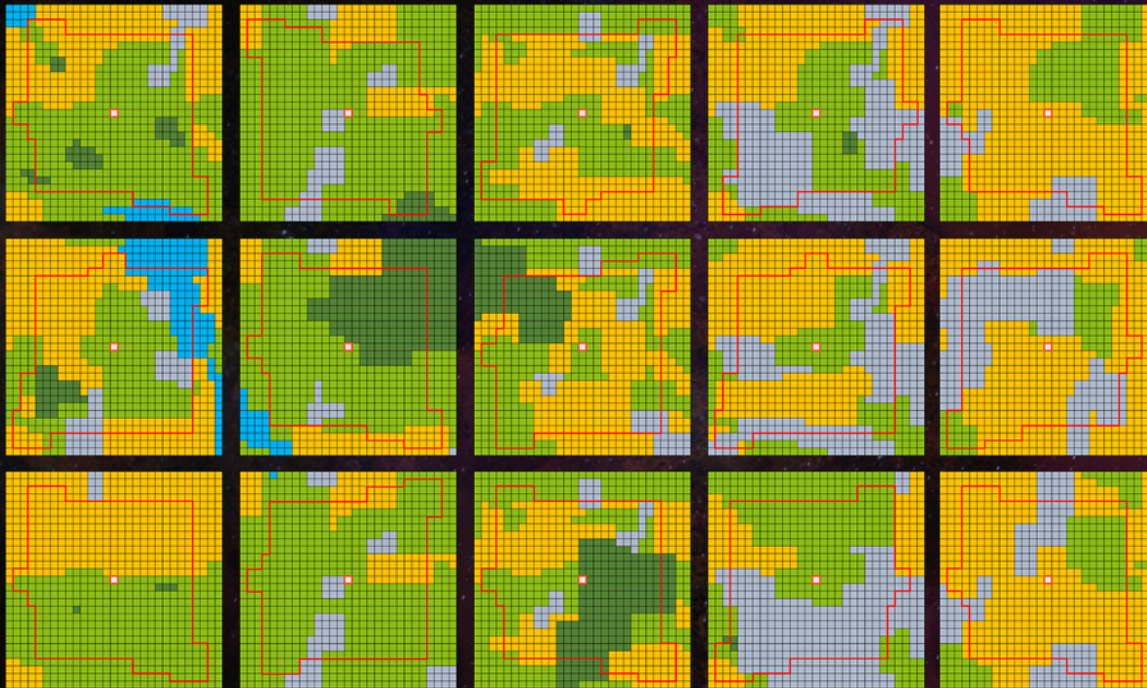

LAND delineates:

The inner surface of the earth is divided into 357 Trillion squares with a unit area of 1m * 1m. Each piece of land is composed of several unit squares connected to each other.

To participate in the games, users must first purchase LAND. LAND has different purposes in games of different eras, such as mining ore, planting or grazing, building real estate, etc.

How to buy:

Buy with BNB in NFT Market of BalaSwap.

ORE

The land contains minerals, mining the land can sustainably obtain CHIP.

CHIP is continuously mined, and there is a certain chance of obtaining ore at the same time. ORE can be used in the next game for synthesizing tools, and users can also sell them to others.

Users who own land will get the basic version of mining tools, and spend a certain amount of CHIP to get tools with higher production efficiency.

The screenshot shows the BalaSwap dashboard with a dark purple theme. At the top, there's a navigation bar with the BalaSwap logo, language selection (English), and buttons for 'Invite' and 'Unlock Wallet'. The main content area is divided into several sections:

- Summary Cards:** Displays \$0.00 for Current TVL and Total Volume(24h).
- Repurchase Metrics:** A row of six cards showing \$0.00 for Repurchase Amount, To be Repurchased, Fee(24h), Pending Rewards, Repurchased quantity, and Boardroom Rewards.
- SingleToken Mining:** A section with a 'More' link.
- Partners:** A grid of logos for BINANCE SMART CHAIN, BITKEEP, TOKEN POCKET, METAMASK, Trust Wallet, and Huobi Wallet.
- Referral Rewards Ranking:** A section with 'Weekly Ranking' and 'Overall Ranking' sub-sections, both showing 'No Data'.
- DAO Section:** A list of items including 'Repurchased' (Repurchase BalaSwap destruction), 'DAO' (Community motion governance), and 'Reward' (Reward mortgage BalaSwap users).

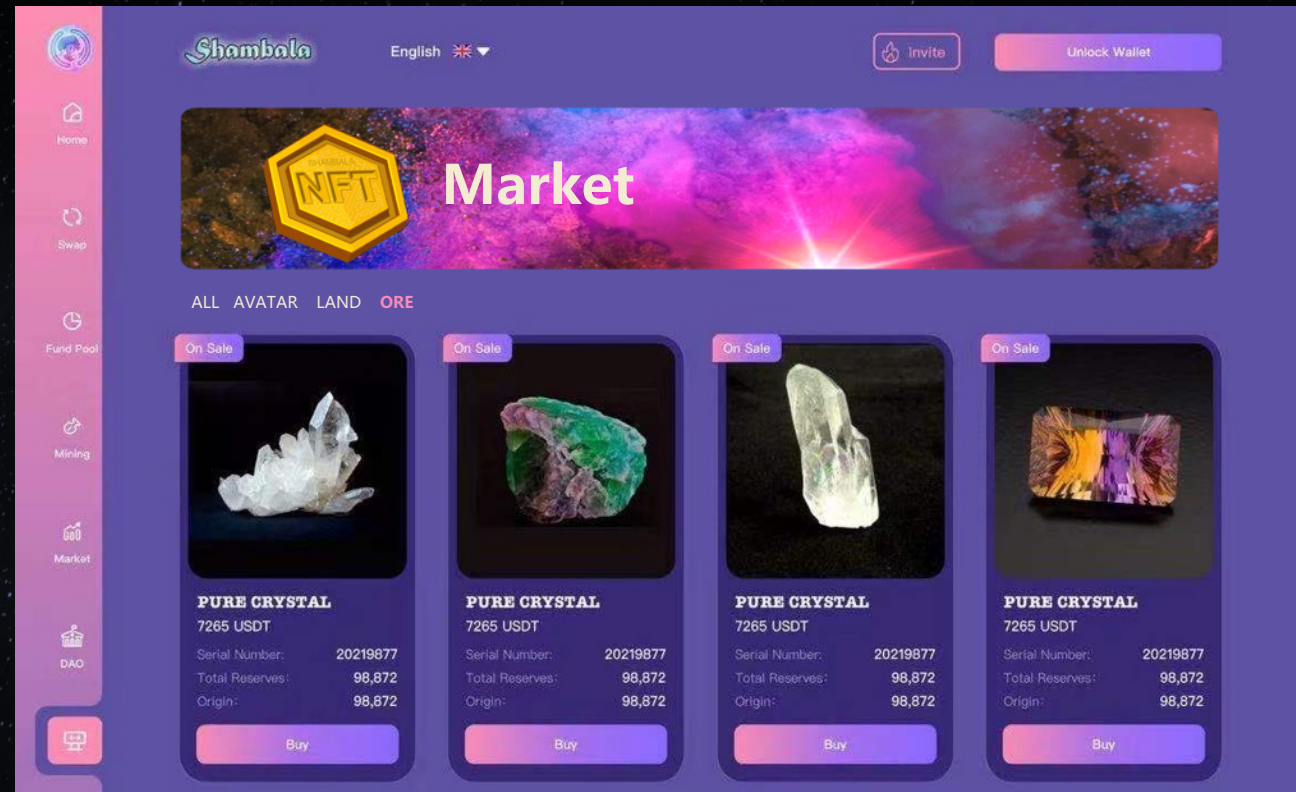

A vertical sidebar on the left contains navigation icons for Home, Swap, Fund Pool, Mining, Market, and DAO.

Market

NFTs will cooperate with CHIP and BALA tokens in the GamFi, Shambala ecosystem and can be circulated through pricing sales, auctions, welfare distribution, etc., and can also be traded on cooperative market platforms.

After the user obtains the NFT, there are two options:

1. Collect and hold the NFT and wait for it to appreciate,
2. Sell it for cash.

The screenshot shows the Shambala NFT Market interface. At the top, there is a navigation bar with the Shambala logo, language selection (English), and buttons for 'Invite' and 'Unlock Wallet'. Below this is a banner for the 'NFT Market' with a yellow hexagonal 'NFT' icon. The main content area displays a grid of NFT listings under the 'ORE' category. Each listing features a crystal image, the title 'PURE CRYSTAL', a price of '7265 USDT', and a 'Buy' button. The metadata for each listing is as follows:
