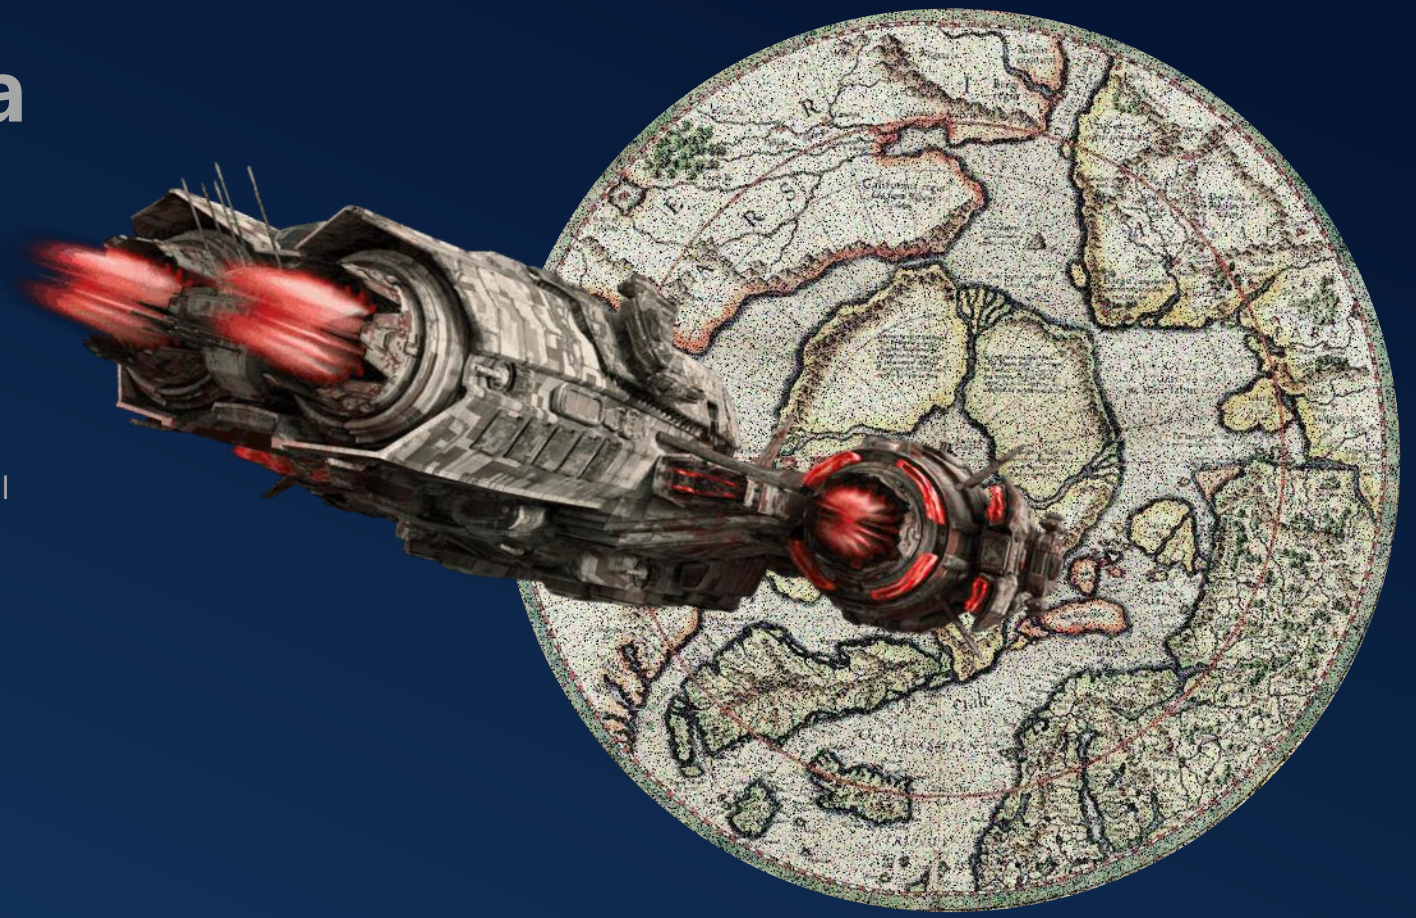
Shambala V4.0

AN INNER UNIVERSE

About Shambala



Shambala, a myth about a mysterious kingdom that has long existed in the earth's core. It is a reverse world in the hollow earth with the underground sun beneath the kingdom.

In Shambala society, the identity of people, social relationships, land and property, commodity consumption, recreational activities, games, etc., are all realized by various NFTs.

Shambala's meta-universe vision is to build an ecosystem of creators. It promotes the entire ecosystem into a whole new virtual game world. BALA is the core currency of this ecosystem.

NFTs

The metaverse project Shambala uses voting mechanism to determine the name for all members in the inner earth: Shambo.

Shambos have their own identification: avatar
The NFT avatars are already on sale on the BinanceNFT market since November 27th, 2021.

AVATAR

Each AVATAR consists of 5 standardized components: face, hat or hairstyle, accessories, clothes, background. The system automatically assembles various components to generate a specific avatar style, and the scarcity of the avatars they generate is different from each other.

AVATAR NFT exists in every game of Shambala.

LAND

LAND delineates:

The inner surface of the earth is divided into 357 Trillion squares with an unit area of 1m X 1m. Each piece of land is composed of several unit squares connected to each other.

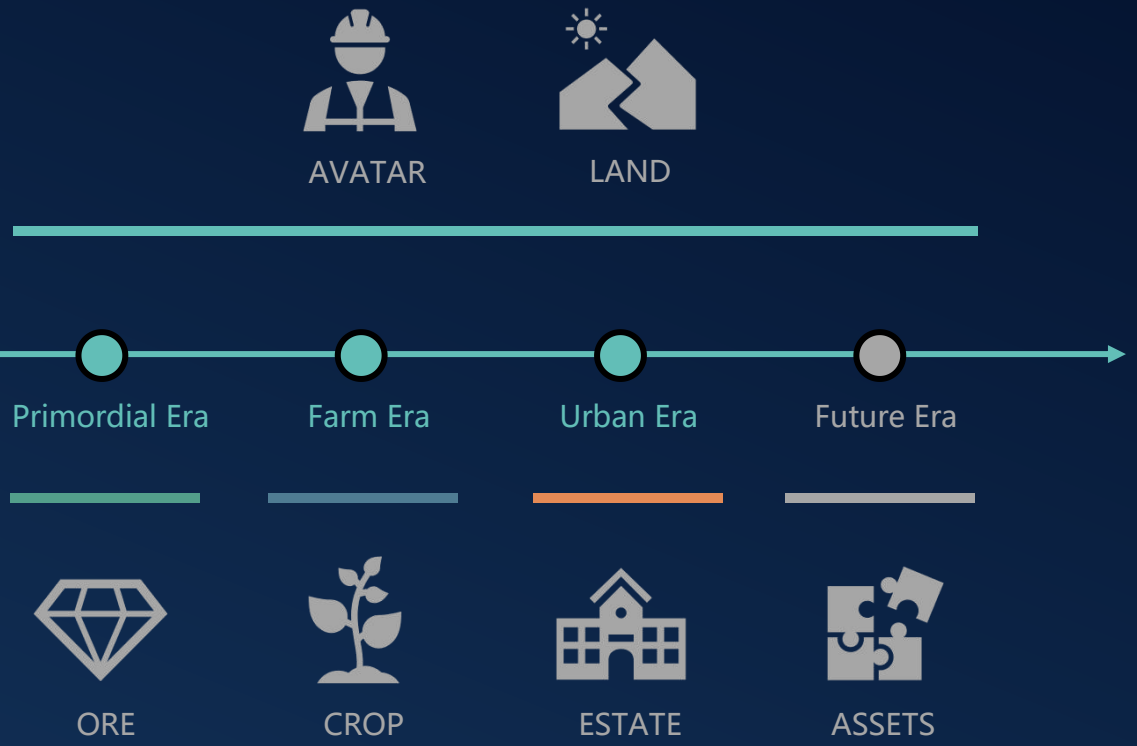
To participate in the games, users must first purchase LAND. LAND serves different purposes in games of different eras, such as mining ore, planting or grazing, building real estate, etc.

How to buy:

Buy with BNB in NFT Market of BalaSwap.

NFTs In GameFi

CHIP is GameFi's universal token, used for various in-game transactions including tool purchases and labor income.



NFTs In GameFi

Balagame's first chain game product will be launched soon. This is a Play to Earn game. BALA tokens are equivalent to the role of AXS tokens in Play to Earn game leader AXIE Infinity.

Balagame aims to create a virtual world economy by publishing "playing and earning" games, sponsoring many "playing and earning" gamers, and creating tools that will enhance the future of Metaverse games. BALA is the core currency of the virtual world economy.

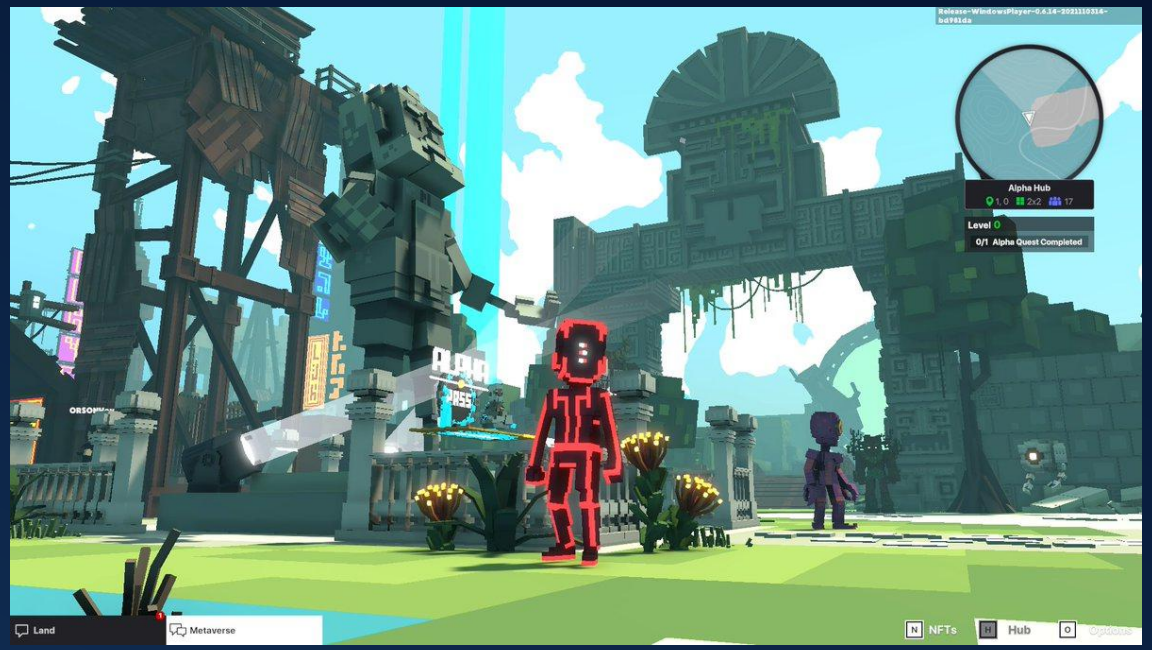
Decentralized gaming world

After Balagame's first gamefi product goes online, it will focus on the development of gamefi's underlying protocol, a decentralized game platform, to facilitate third-party game studios or individuals to create their own gamefi products in Balagame.

Shambala Metaverse will provide early fund raising (IDO) and initial game product release (IGO) for games that settle in the ecosystem.



DAO

Shambo is the citizens of Shambala Metaverse. We have released the NFT of Shambala's avatar as an identification in the virtual game world of Shambala.

In the virtual economy of Shambala Metaverse, Shambo will form a DAO, allowing every Shambo to participate in community autonomy and promote the healthy development of the entire ecosystem.

Vision

Shambala’ s meta-universe vision is to build an ecosystem of creators. While transforming players into creators, encouraging players to discover various fields such as architecture, fashion, virtual concerts, virtual performances, art exhibitions, collections and museums, etc., it promotes the entire ecosystem into a whole new virtual game world. BALA is the core currency of this ecosystem.
